The Things that Count

CARNEGIE'S MILLIONS form a MONUMENT to his THRIFT. MORGAN'S MILLIONS form a MONUMENT to his BUSINESS ENTERPRISE.

They are merely outward signs of success founded on small investments. You cannot afford to ignore the lesson they teach. Unless your surplus nickels and dimes are being put to good use, your financial future is a gamble. We all have the instincts of thrift and enterprise if energy enough was spent in developing them.

Introductory

Herewith is presented the Sixth Edition of Henderson's Moose Jaw City Directory which is the result of careful work in accordance with the latest and best known methods in directory publishing.

Possibly no other volume or catalogue of statistics could more accurately portray the city's expansion and progress, nor more minutely represent its industrial growth and development in every department.

The Miscellaneous Section in the front part of the volume has been compiled and revised from the latest records and statistics.

The Classified Business Section in the back part of the volume is so arranged as to be of the greatest value for ready reference.

The publishers desire to record the fact, that, although the disastrous European War has in a measure affected every city in the Dominion, the status of Moose Jaw, being in the midst of a productive area, should nullify the evils accompanying that event.

In conclusion the publishers desire to thank the general public once more for their courtesy and kindness in supplying information, and the subscribers for their liberal support in the production of this work.

City of Moose Jaw

PART I.

Descriptive Review

Moose Jaw is most favorably situate in the southwestern portion of Saskatchewan, lying amidst one of the greatest grain producing areas of the Dominion.

Beginning to assume the appearance of a thriving town in 1901. the population then being 1,500, is has increased more and more rapidly each year, until now (1914), the population reaches about 30,000.

As a grain and milling centre, Moose Jaw holds the unique position of being in the very heart of the greatest wheat belt of North America. During 1912 there was a total acreage under crop in Saskatchewan of 9,184,814 acres and from this 237,278,446 bushels were harvested. In 1913 the total acreage under crop in the province was 9,673,125, from which 243,513,384 bushels were harvested. The following is a list of the different crops grown and their acreage and yield:

	1912—Acres	1913—Acres	1912—Yield	1913—Yield
Wheat	5,384,092	5,760,249	107,167,700	112,369,405
Oats	2,421,932	2,638,562	107,617,948	110,210,436
Barley	267,139	307,177	8,319,584	9,279,263
Flax	1,111,651	967,137	14,171,214	11,654,280
	<u>9,184,814</u>	<u>9,673,125</u>	<u>237,276,446</u>	<u>243,513,384</u>

Being surrounded by such a vast and fertile grain-growing country, Moose Jaw is becoming an important flour-milling centre of Western Canada.

One plant in Moose Jaw produces approximately 2,300 barrels of flour per day and 500 barrels of oatmeal, besides other breakfast cereals. 135 men are employed by this Company which has an invested capital of \$800,000.

A second mill is now being installed which will cost \$350,000, and have a capacity of 1,500 barrels of flour daily. It is expected that this plant will be in full operation early in 1915.

A packing plant, located in this city, is one of the most up-to-date in the West. There are 190 men employed and the daily consumption is stated to be 3,000 sheep, 3,000 hogs and 350 bees. The initial investment in the plant and sales equipment amounts to over \$1,500,000.

A Linseed Oil Company is erecting a flax mill and has taken out a building permit to the amount of \$750,000. Their plant is being erected on the ground immediately adjoining the government elevators. When completed this mill will have a daily capacity of 8,000 bushels of flax.

Large iron works are located here carrying on business of erecting bridges and general iron working. The plant and equipment represents an investment of \$500,000.

The Canadian Pacific Railway have their chief divisional point for Saskatchewan established here, and their investment at this point represents over \$5,000,000. Employing 2,500 men in and around Moose Jaw, the payroll amounts to over \$250,000 per month, with 67 miles of trackage in Moose Jaw, these yards are the third largest individually owned trackage yards in the world.

The Canadian Northern and Grand Trunk Pacific Railways have also through communication herein.

The Street Railway Company is now operating on 14 miles of trackage, giving a service to all central parts of the city and the company is now constructing two miles of new trackage.

Moose Jaw's main street presents an attractive appearance to the stranger. During the past year or so private buildings to the aggregate amount of \$3,355,000, ranging in individual cost from \$25,000 to \$275,000 have been erected, and the public buildings during the same period which have been completely built or are still in course of construction amount to a total investment in this construction alone of \$1,500,000.

The beautifying of the city has by no means been neglected, \$140,000 was voted last year to be spent in laying out parks and playgrounds which cover 180 acres.

The educational facilities of the city are second to none in the prairie provinces. There are seven schools, collegiate institute and the Moose Jaw College, where the youth of the city can receive their education preparatory to a course at the university.

An important branch in farming is now being taken up with great success. This is mixed farming. Vegetables which the farmer up to a few years ago thought could not be raised profitably in this country are now grown and large profits are accruing to those catering for the city in this respect.

As a splendid distributing area with 3 railways operating the future of Moose Jaw appears to be assured.

Board of Trade

Moose Jaw's Board of Trade, an aggressive business combination, has a good secretary in the person of Mr. R. Patton.

Churches

There are twelve churches with a combined seating capacity of 5,500 and these are filled to overflowing every Sunday. Knox Presbyterian Church, recently erected at a cost of \$190,000, has a seating capacity of 1,200 persons and is one of the most up-to-date and best equipped churches in Western Canada.

Y. M. C. A.

The local Y.M.C.A. has the largest membership per capita of any city in Canada. The membership of this institution is over 1,100. The building is fitted up with swimming pool, shower baths, gymnasium, billiard hall, reading, writing and lecture rooms.

Acquatic Club

Much interest has been aroused by the addition of aquatics and this sport is cared for by a new club and boathouse recently erected. Annual regattas are held.

Banks

The financial status of Moose Jaw is in charge of 11 Chartered and one Private Bank. These comprise Bank of Nova Scotia, Canadian Bank of Commerce, Bank of Montreal, Bank of Hamilton, Union Bank, Northern Crown Bank, Royal Bank, Imperial Bank, the Home Bank, and the private bank of Hitchcock and McCulloch, alluded to.

Internal Development

The Board of Trade is desirous of getting in touch with manufacturers and wholesalers who are contemplating establishing branches in the West. Enquiries addressed to the Secretary, Moose Jaw Board of Trade, will be given prompt attention. Thoroughly reliable information will be gladly furnished on the conditions in this city and surrounding country to any manufacturer or wholesaler who desires a special report on a particular line of business.

Customs

A very large amount of business with the United States is carried on at this point as will be seen by the Custom House returns for the past two years. This is accounted for by the fact that Moose Jaw is situated on the direct line of the Canadian Pacific Railway from Edmonton to Minneapolis.

Sewer System

The sewerage consists of separate systems, the storm sewers discharging into the creek, while the soil is disposed through the plant at the east end of the city.

Road and Sidewalks

The city has at present 67 miles of graded roads, 14¼ miles of plank walk and 29 miles of granolithic walk.

Business Expansion and Facilities

There are twelve hotels, together with a large number of wholesale distributing houses, flour mills, oatmeal mills, brewery, brick-yards, daily, semi-weekly and monthly newspapers, while all lines of business, from retail stores to factories attend to the wants of a rising community. For the further encouragement of wholesalers' interests the city offers the necessary sites with spur track facilities at nominal prices, with liberal discounts on water and power rates. With a large agricultural district tributary to this point splendid openings abound for such enterprises, while careful civic administration has kept the tax rate reasonably low, the present rate being 10 4-5 mills on the dollar.

Public Offices

The increasing demands of the vast tributary district have made Moose Jaw an important centre for both the Dominion and Provincial Governments operations. Dominion Lands Office, the Land Titles Office for the district, a Customs building and the Post Office Inspec-

tors for the province and their staffs, as well as the Railway Mail Superintendents, and the Chief Collector of Inland Revenue for the Province all have their headquarters in the City.

University of Saskatchewan

University of Saskatchewan, Saskatoon

The University is situate on the east side of the south branch of the Saskatchewan river. Its site comprises 1,333 acres. About 300 acres, with frontage of over half a mile on the river, have been set apart for a campus. A portion of the quarter section south of the campus is devoted to plot work, the land being virgin prairie.

A general plan of the campus, making ample provision for future growth, is being prepared. In the preparation of this plan advantage is being taken of the experience of state universities with problems similar to those of this University. In the erection of buildings it was thought wise to begin with a number of small buildings adequate to present needs, but capable of being adapted to special purposes without serious waste and at small cost when the growth of the University requires greater specialization in buildings.

The College building is about 220 feet long and 52 feet wide with wings of about 111 feet in length and 30 in width. At the rear is a large hall capable of seating between 500 and 600 people. This building will be used for teaching purposes in Arts and Agriculture. It is located in a position convenient to the Agricultural, Engineering, Horticultural and Dairy buildings, the Stock Pavilion and Farm buildings so that in time it may be devoted exclusively to the College of Agriculture. Near it is placed the first residence for students.

The University estate consists of the campus, about 293 acres, an the College Farm, 1,040 acres. The College Farm proper consists of 880 acres.

Postal Information

RATES OF POSTAGE

FIRST-CLASS MATTER.

LETTERS

Letters posted in the City addressed for delivery in City or within the district covered by Letter Carrier Delivery, 1 cent per ounce or fraction thereof.

Letters addressed to places in Canada, Mexico and United States, including Guam, Hawaii, Panama Canal Zone, Philippine Islands, Porto Rico and Tutula, 2 cents per ounce or fraction thereof.

Letters addressed to places in Canada must be at least partially prepaid, and those addressed to Mexico and the United States must be prepaid at least a full rate (2c.). Otherwise they will be sent to the Dead Letter Office.

Letters addressed to places in Canada and partly prepaid will be forwarded, subject on delivery to double the amount of unpaid postage.

Letters for the United States should bear the name of the State as well as that of the Post Office.

Letters addressed to mere initials, or fictitious names, will not be delivered unless addressed in care of a resident or to some box in the Post Office.

Letters addressed simply to a street number or to a room number in a specified building without the name of a person, firm, etc., may be delivered, provided there is only one household or firm in occupation of the premises indicated; otherwise letters so addressed will be sent to the Dead Letter Office as insufficiently addressed.

Every letter for the city should bear name, street and number, no matter how well known the name may be; otherwise it is an incomplete address, and delivery may be delayed.

RE-DIRECTED LETTERS.

Re-directed letters are not liable to any additional postage if handed back to the Post Office with a changed address at the moment of delivery or as soon as possible thereafter, provided always the change in the address does not require the letter to be sent to any place to which the postage rate is higher than was at first payable. In this case the additional postage, if not prepaid, will be collected on delivery.

Re-directed letters should not be dropped into a Post Office Box or Receiver unless additional postage has been put on to carry them to their second destination.

REQUEST LETTERS

Letters from places in Canada, Newfoundland, Mexico and the United States, covered by envelopes, bearing a request, either printed or written, that the letters be returned to the sender if not delivered within a certain specified time, will be returned as requested if not delivered in the time stated.

Requests, whether printed or written, on packages of Third or Fourth-class matter, and on transient newspapers for return in case of non-delivery, will be complied with; but a charge will be made for such direct return equal to the original postage charge.

SPECIAL DELIVERY LETTERS

Letters are sent to their City Addresses between 8 a.m. and 7 p.m. daily, except Sunday, bearing, in addition to the usual prepayment of 2 cents an ounce, a "special delivery" Canadian stamp, addressed to the following cities in Canada: Amherst (N.S.), Belleville, Berlin, Brandon, Brantford, Brockville, Calgary, Charlottetown (P.E.I.),

Chatham, Fort William, Edmonton, Fred-ericton, Galt, Guelph, Halifax, Hamilton, Hull (Que.), Kingston, Lethbridge (Alta.), London, Medicine Hat (Alta.), Moncton (N.B.), Montreal, Moose Jaw (Sask.), New Westminster (B.C.), Niagara Falls (Ont.), Ottawa, Owen Sound, Peterboro, Port Arthur, Prince Albert, Quebec, Regina, St. Catharines, St. Hyacinthe, St. John, St. Thomas, Sarnia, Saskatoon (Sask.), Sault Ste. POST CARDS

For Canada, Mexico and the United States, 1 cent each. For Great Britain, Newfoundland and all Postal Union countries, 2 cents each. Reply cards for Canada and the United States, 2 cents each. Nothing must be attached to a Post Card.

Private Post Cards, duly prepaid 1 cent each by postage stamp, may be posted in Canada for delivery within Canada, Mexico, and the United States.

Private Post Cards may have a reply card attached bearing 1 cent stamp.

Post Cards (official or private) may be posted in Canada addressed for delivery in any Postal Union country, postage 2c. each. Such cards are admissible as "printed matter," provided they conform to the regulations governing same, in which case the postage rate is 1c. each.

The limit of size for a Private Post Card (Domestic) is 6 in. long by 3½ in. wide.

The British Post Office will recognize as entitled to return to this country the reply halves of Canadian Domestic Reply Post Cards upon which the additional 1 cent postage stamps required have been affixed.

For fear of the reply side of a double post card becoming uppermost, enclose it in a small India-rubber ring.

Legal Documents and Commercial Papers

Legal Documents and Commercial Papers, and all other matter either wholly or partly in writing (except the matter specially mentioned under Third-class), are liable to letter rate of postage, 2 cents per ounce, when posted for delivery in Canada.

These papers may be sent to Great Britain, Newfoundland, United States, and all Foreign countries at 5 cents for the first 10 ounces, and 1 cent for each additional 2 ounces. Must be sent in covers open at the ends, so as to be easy of examination.

GENERAL POSTAL INFORMATION

A large number of letters reach the Post Office every day which are undeliverable, by reason of the absence of street and number from the address, while serious delays and vexatious errors occur all the time from the same cause. Whether in business or residential districts, "street and number" form an indispensable part of the address of letters. If business men, however well known, have their street and number printed on their stationery, their correspondents avail themselves of the information, and the Post Office and public are both benefited. Delay to the extent of at least one delivery must occur when reference to the City Directory is necessitated.

CITY LETTERS.—Where an addressee's name is in the City Directory, the writer has the same means of completing the address as the post office has, and delay in delivery is avoided.

A street runs sometimes for miles under the same name, and a dozen or more carriers serve its several parts. Where the house number is omitted from the address in such streets, the letter will be returned to writer for amended address, instead of, as heretofore, being tried on every carrier serving that street, and prompter delivery will result. If referred to our Directory Clerks, the wrong person must often be "tried" and time is lost in the same way.

Thinking to save trouble in their own offices, persons mailing circulars, catalogues, etc., in large numbers often address them omitting street and number; thus entailing certain delay in sorting and equally uncertain delivery. Banks and companies posting notices and dividend cheques are constant offenders in this way. In the interest of the senders these will be returned in bulk for better address.

Persons living in the neighborhood of the Post Office sometimes complain that they receive letters no earlier than those who live in the suburbs. It would seem almost unnecessary to state that every carrier begins his walk practically at the same time. The position of a house in the carrier's walk governs the time at which letters are received there. These walks are meant to be covered in one hour, or two, according to district and the number of deliveries made in the day. The hour of the first delivery accords with the arrival of morning trains from the East; and a majority of people object to receiving letters before 8 a.m.

Merchants or others having much mail matter to post at or about 6 p.m., when their offices close, are advised to insist on their messengers carrying the matter to the General Post Office, thus avoiding occasional overfilling of the street letter boxes in the central district.

Persons posting circular notices of meetings, etc., where immediate despatch is of importance, would do well to hand them in at the Post Office with intimation to that effect.

The growing habit of using in an address the fancy title of a house, instead of merely the plain street and number, is a frequent source of error at the sorting cases, where the work has to be done by a rapid glance, and the title of the house happens also to be the name of a post-town.

A Carrier is not required to leave letters at any house where he may be in danger of a vicious dog. The owner must call at the General Delivery, till the dog is tied up or otherwise disposed of.

Many persons telephoning to the Post Office resent the reply that their request must be put in writing. But obvious mischief might result from orders for the disposition of correspondence given by an unrecognized voice.

Unused Postage Stamps not being redeemable by the Department should not be used for the remittance of small sums of money, as Postal Notes have been introduced for that purpose.

A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its direction. On no application, however urgent, can it be delivered back to the writer or to any other person.

The sending of a letter or any communication or document subject to letter postage in an open cover does not in any way diminish its liability to letter rate of postage.

Letters bearing mutilated stamps, or stamps so soiled and defaced as to make it impossible for the sorting clerks to decide whether they have been used before or not will be sent to the Postmaster General for his adjudication.

LETTER CARRIER DELIVERIES

In the majority of residential districts there are two deliveries each week day, commencing at 7.45 and 15.30. In the central or business district there are four deliveries each week day, commencing at 8.00, 9.00, 13.30 and 16.45
